The International Collaboratory for Emerging Technologies, or CoLab, under the Advanced Computing program and in close cooperation with the University of Texas at Austin (USA) and the University of Minho in Braga (Portugal), presents an Advanced Seminar on Multicore Platforms, at University of Minho, Braga, Portugal, on June 1-3, 2009.

The Seminar aims to provide insights into the current state-of-the-art in multicore platforms, by inviting speakers from leading scientific and industrial experts of the community.

The topics addressed by the Advanced Seminar range from architectural and programmability issues to parallel scientific computing.

Local organizer: Alberto Proença (aproenca@di.uminho.pt).
