
Scheduled stop on the SFS file system

- Last Updated (29.09.2010)

A scheduled stop on the SFS file system of the FinisTerae will be performed on Monday, September 27th. This shut down will start at 08:00 a.m and will last approximately 1 hour. During this time the FSS will be not accessible, but FinisTerae and the data you may have in your HOME will be available. Any work you have to write in the FSS will remain on hold until it is accessible again.
