
International Conference: "Numerical Methods for Hyperbolic Equations: Theory and Applications"

- Last Updated ()

The Faculty of Mathematics of Santiago de Compostela will held on 4-8 July 2011 the international conference "Numerical Methods for Hyperbolic Equations: Theory and Applications ", in recognition of the contribution of Professor E.F. Toro to education and training in numerical methods for PDEs (Partial Differential Equations). Deadline for submissions is March 6th, 2011.
